

**University of Connecticut School of Medicine Division of Occupational &
Environmental Medicine
Connecticut
Elective Description**

A. Location: Connecticut

B. Length of elective: 4 weeks

C. Goals of Program:

D. Elective director contact info:

Dr. John Meyer
meyer@uchc.edu

E. Coordinator contact info:

F. Types of daily/weekly activities in which the student is likely to participate:

tailored, arranged informally in response to requests. This elective enables students to become familiar with the diagnosis, management, and investigation of work-related and environmentally-related diseases. Students evaluate patients with a wide variety of exposures and clinical problems, gaining valuable experience with the many parties concerned with occupational and environmental health: patients, employers, communities, regulatory agencies, insurers, unions. Students become familiar with resources in occupational/environmental medicine and learn to take a more detailed approach to occupational/environmental health history taking as an extension of what they have learned in their Clinical Medicine Course.

G. Populations with whom the student is likely to work:

H. Diseases and issues with which the student is likely to gain familiarity.
