Session 6: Improving Indoor Air Quality and Managing Asthma from the Clinic to the Community: A Skill-Building Institute for Health Care Professionals

Moderator: Joshua Lipsman, MD, JD, MPH, FACPM, Commissioner of Health, Westchester County Department of Health

Speakers:

- Kathleen Conroy, MD, Fellow in General Academic Pediatrics, Boston Medical/Boston University School of Medicine
- Barbara Spark, Indoor Air Program Coordinator, US Environmental Protection Agency
- Anna M. Gard, MSN, FNP-BC, Health Disparities Consultant, Association of Clinicians for the Underserved
- Christine L. Johnson, MD, CDR, MC, USN, Pediatric Residency Program Director, Naval Medical Center San Diego
- Elisa Nicholas, MD, MSPH, Chief Executive Officer, The Children's Clinic, Serving Children and Families

Learning Objectives

At the Conclusion of this session the participant will be able to:

- Utilize realistic and practical measures to reduce indoor asthma triggers
- Access the tools and resources for all health care professionals needed to improve indoor air quality
- Gain an understanding of the environmental exposure history form and how to incorporate it into clinical practice
- Counsel patients on and manage exposures to indoor asthma triggers and environmental tobacco smoke, especially patients from disproportionately impacted communities
- Effectively approach environmental asthma education and management utilizing the Chronic Care Model as a framework
- Understand the role of providers in outreach and ensuring a patient's right to a safe and healthy indoor air environment, through legal and community resources
- Learn about effective systems based approaches to sustaining successful community programs

Disclosures: Drs. Lipsman, Spark, Gard, Conroy, Johnson and Nicholas have no financial relationships to disclose.
